Kathy:

I reviewed your draft and think it looks very good. I would very much like to meet with you and Carla regarding an envisioned database draft (and also to catch up on any details related to the Opentext meeting). If there is a time this week or next that would work for both of you, please let me know. (My calendar should be up to date in Outlook).

As for an update to Rick and Roger - I think it might be more meaningful to hold off and wait till some of the open questions (e.g., is INBIFO part of the PMI review process or not) get resolved. If that seems to be taking too long, then just a progress update would be in order. We can discuss this when we meet.

Thanks,
Valerie

Hi-

Thanks for your helpful discussions in response to the email I received from Daniel Braem, PMI MRB chairperson.

I've drafted a reply and would appreciate your reviewing it. I've included a cut out of my Excel spreadsheet that I use to capture info about peer review status, banquet status, and copyright. Besides Daniel, I'll send this correspondence to Harriette.

Valerie-Do you have any suggestions about an update for Roger and Rick? Would you be interested in meeting with Carla and me to draft an "Envisioned Database" set of specifications for fields and reports?
